INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

Regiment left New York Sept 14/62. Arrived at Land Point
15th Sept 14/62 and crossed railroad until Sept 18, when
orders were received to march to Annapolis. Reported at
Annapolis Sept 20/62.

Discipline of the Regiment excellent. The drill for the
time have been drilled about 7 to 10 days. Arms very
poor and inefficient, being the same as Rifles & Snork
Bayonets furnished by the State, very heavy, clumsy to
handle and Bayonets do not properly fit the rifles, they go
off at half cock and at full cock. The commandant can
be pushed down by force of wind. The commanding officer
respectfully requests that a Board of Survey be appointed
for the purpose of examining the same.

The figure consists of two parts. The upper part is a network diagram with 8 nodes arranged in a grid-like pattern, connected by 7 links. Labels indicate \$N = 8\$ and \$L = 7\$. The lower part is a graph with the number of nodes (\$N\$) on the horizontal axis and the number of links (\$L\$) on the vertical axis. RECORD OF EVENTS.

On the 1st day of November 1862 the Regt
was encamped near Fairfax Ctt. in
Army tents where they had been since
the 13th of October previous engaged
in drilling and acquiring the tactics.
The Regt. was composed entirely of re-
enlisted and this was the first and
only opportunity they had had for drill
and discipline in which they had
made tolerable proficiency. On the
2^d day of November orders were recd
by the Regt to march on the road to Centerville.
The order came entirely unexpected to
the regt as they were wholly unprepared

for marching or any other service in the field as the camp equipage in the possession of the Regt could not be transported. A guard was detailed of three men from each Company from among those too indisposed to march to guard the stock property left at the Camp. Pursuant to the order the Regt took of the line of march on the Centerville road and that day marched on the Worrenton turnpike and encamped for the night at Cub Run a distance of about 9 miles. The next day the march was continued to Carters Switch near Thoroughfare Gap a distance of about 9 miles from where the Regt encamped the night before. The Regt remained at Carters Switch until the 7th day of Nov. on which day it marched by Bucklands Mills to Leachs Farm near New Baltimore a distance of 7 miles. On the 8th of Nov. the Regt left Leachs Farm for Thoroughfare Gap a distance of 14 miles and remained at Thoroughfare Gap until Monday the 11th inst. in the evening of which day the Regt marched to Hagermarket a distance of 14 miles and encamped for the night. On the next day the Regt marched to Cub Run a distance of 7 miles and encamped for the night. On the next day the Regt marched to the place where it is now encamped a distance of 7 miles. These marches have had a deleterious influence upon the Regt producing sickness and general demoralization in consequence of the undisciplined condition of the Regt at the time the march commenced and in consequence of not having time to drill and discipline to prepare the Regiment for the field.

the enemy opened fire which again brought on a general engagement which lasted more or less until 4 o'clock, when the firing pretty much ceased for the day. The loss of Co. B in the engagement was more being 9 killed, 10 wounded, 2 of whom have since died of their wounds, and 1 missing, leaving only 10 rank and file at the close. Too much praise cannot be bestowed on the gallant little band composing the 2nd. brigade when it is known that they scarcely numbered more than a full regt. and this gallant bandful of men kept at bay some six times its numbers during the time engaged. Great is especially due to the field and line officers and to the rank and file of this brigade, as after being posted for the fight they performed their various tasks entirely upon their own volition. The 4th was spent in burying the dead. On the 6th we took up our kind of march in pursuit of the enemy via Centerville, Haneytown, Frederick City, Jeffersonville, Peterville, through Brampton's Gap in both Mountain to Fair Play. Here we found the enemy strongly posted. Gen. Lee here effected his escape across the Potomac into Virginia.
